

MARY BETH CROSS

What Others Say

"What is so compelling about Mary Beth's music to me is that it both educates and moves me. Her love and understanding of the struggles of the people of whom this great country of ours was founded by creates compelling stories. Mary Beth focuses not on the individuals that we commonly hear about in our middle school history class but rather the members of society who were seen as less than human. For her to tell these stories that so few have ever heard gives a voice to those who were born in a time when not everyone was treated as equal. This reveals Mary Beth's compassionate heart. When so many artists strive for their stories and for their voices to be heard, Mary Beth focuses much of her creative energy painting a word picture for those who could not." -- **Dave Bechtel**, *Producer/Collaborator*
